REASON STAFF MEMBER IS NOMINATED

The transportation staff of Michael, Kathy and Jean have faced and met the challenges in the district planning and plan implementation of students Returning to School and ensuring students were scheduled to be transported and transportation routes were efficiently developed. As we continue with in person school, and students coming back from remote learning, this team continues to work on ensuring buses do not get overloaded and student rosters are up to date. In addition to regular school day transportation they also work efficiently transporting our athletic teams to and from their competitions. Their dedication and focus on students and district excellence is appreciated.
